### **Happy New Year 2018**

It's hard to make a summary of a really dynamic and successful working year, but we will try to explain that we started 2017 with the project "Academy: Who if not the you(th)?" and we ended the year with the project "New Generation of Youth Leaders to Address Hate Speech". In meantime, we had mentor support for Fusion Lab and KinoBit. And this was possible due to the involvement of the whole team, executive office, volunteers and members of the Management Board. We wish to all of you equally Happy New Year 2018.

## Promotional video of our #nohate project

Among the activities foreseen with the project "New Generation of Youth Leaders to Address Hate Speech", we anticipated making a promotional video, so that everyone can get a clear idea of what young leaders from the high schools from Bitola were doing and what they should do to decrease the hate speech, abusive speech, and other forms of discrimination. You can view the video via our <u>YouTube channel</u>. As the youth leaders said, we hope that you will join us in the fight against hate speech.

# Participation at the International Conference "We Are Visual"

Since we were part of the training for educators by Makedox and their project "We Are Visual", trained to use creative documentaries as an audiovisual tool for educating young people on the topic of human rights, we participated at their <u>international conference</u>. We also received a new manual with new documentaries about human rights. If you are interested about this topic and want to share some of your thoughts, write to us.
